

WHY A GENERAL STRIKE?

**Our strike is a wake-up call to the upper class,
that they depend on us as much as we depend on them.**

The companies that contribute to climate change have little incentive to do otherwise. This is deeply unfortunate, but it is due to the demands of their stockholders and the influence that their wealth gives them over their regulators. *Protests are great, but to the oil barons they matter less than their next million-dollar paycheck.*

Our goal isn't to convince them that they should ignore their own personal incentives for the greater good. Our goal is to *change* these incentives, so that they have no *choice* but to do what's right, or risk losing *their* jobs and *their* livelihoods.

This is the purpose of a general strike. We force the hands of power by refusing to partake in the system propping them up. *They hold most of the cards, but they can't take away the power we have to withhold our labour.*

**The companies and politicians are destroying our planet.
But they are few in number,
and it is our compliance in the system that keeps them afloat.**

HOW CAN I HELP?

1 **Contact your local Earth Strike chapter!**

Check earth-strike.com/map to find chapters in your area.

2 **Join our protests and rallies throughout the year!**

International events are scheduled for *January 15, April 27, and August 1.*

3 **Spread the word!**

Talk to your friends and family, and scatter our pamphlets and stickers around your city.

AND MOST IMPORTANTLY...

4 **STRIKE FOR THE EARTH!**

GLOBAL GENERAL STRIKE begins September 27!

EARTH STRIKE

GENERAL STRIKE TO SAVE THE PLANET - 2019

WHAT IS EARTH STRIKE?

We are a grassroots movement demanding immediate climate action from governments and corporations worldwide.

Since our inception in November 2018, we've racked up thousands of members in over sixty countries, along with endorsements from the IWW Ecology Caucus, Noam Chomsky, David Graeber, and many other prominent organizations and activists.

The most important issue of our time

We are headed for climate catastrophe.

We have until 2030 to avoid a 1.5°C rise in global temperatures, which will cause:

- famine
- droughts
- floods
- wildfires
- diseases
- mass extinction

on a catastrophic scale.

**The time to act is now,
for the future of humanity.**

OUR PLAN

Our protests, scheduled throughout 2019, will raise awareness for a

GLOBAL GENERAL STRIKE

beginning September 27.

Head to earth-strike.com/map to find events in your area!
