

# **We are headed for climate catastrophe.**

**We have until 2030 to avoid a 1.5° rise in global temperatures, which will cause:**

- famine
- droughts
- diseases
- floods
- wildfires
- mass extinction

**on a catastrophic scale.**

**The time to act is now, for the future of humanity.**

## **OUR PLAN**

**Our protests, scheduled throughout 2019, will raise awareness for a GLOBAL GENERAL STRIKE beginning September 27.**

**The companies and politicians are destroying our planet.  
But they are few in number,  
and it is our compliance in the system that keeps them afloat.**
